PROJECTS

PrepNinja – AI-Powered Placement Preparation Platform | MERN, JWT, AI Integration [Live Demo](#)

- Collaborated in a team to build a full-stack placement preparation platform with secure JWT authentication.
- Developed AI-powered mock interviews, coding assessments, DSA practice, and aptitude modules to support placement preparation.
- Implemented interview tracking, performance analytics, and leaderboards to monitor user progress.

Career Recommendation System | Python, Flask, Scikit-learn, React.js

- Built an AI-powered career recommendation system using Machine Learning to recommend career paths based on users' education, skills, certifications, and academic profile.
- Performed data preprocessing, feature engineering, model training, and integrated the ML model with a Flask backend for real-time predictions.

INTERNSHIP / EXPERIENCE

Sabudh Foundation

Data Science Intern

Jul 2026 – Present

Remote

- * Working on Data Science and Machine Learning projects involving preprocessing, visualization and predictive modeling.
- * Using Python, Pandas, NumPy and Scikit-learn to build practical data-driven solutions.

EUPHORIA GENX

Machine Learning & Cloud Computing Trainee

Jan 2026 – Feb 2026

In-house Training

- * Completed hands-on training in Advanced Python, Machine Learning (Scikit-learn), and Cloud Computing fundamentals with supervised learning projects.
